Sankey Path Analysis

Sankey Path Analysis

This dashboard is similar to the [Path](#) dashboard, except that it generates the results based on milestones and menu inputs.

Tip

The Sankey panel might not be able to render correctly if there are several nodes or links to display. When this happens, you'll be prompted to increase the height of the panel.

Sankey Path Analysis

This diagram shows how sessions are tracking through a series of milestones or menu inputs. You can toggle between the different reports using the **Show report** menu, and export the results to a CSV file.
