Configurations Options Reference Manual

[MessageServer] Section

[MessageServer] Section

This section must be called **MessageServer**.

signature

Default Value: log

Valid Values:

log	This Message Server is used for logging to the Centralized Log Database.
general	This Message Server is used for strategy monitoring from Interaction Routing Designer.
scs_distributed	This Message Server is used for communication between distributed Solution Control Servers.

Changes Take Effect: After restart

Specifies the role of this Message Server. Solution Control Server uses this option to determine what this Message Server does and what messages it handles.

If this option is not configured, this Message Server is used for logging.
