[mailer] Section

This section contains information about SMTP-related settings for SCS.

This section must be called **mailer**.

smtp_from

Default Value: No default value

Valid Values: E-mail address

Changes Take Effect: Immediately

Specifies the value of the From field in the email message that SCS sends as an alarm reaction of the E-Mail type.

smtp_host

Default Value: No default value

Valid Values: Host name

Changes Take Effect: After restart

Specifies the host name of the SMTP server to which SCS sends alarm reactions of the E-Mail type.

smtp_port

Default Value: 25

Valid Values: Port number

Changes Take Effect: After restart

Specifies the port number of the SMTP server to which SCS sends alarm reactions of the E-Mail type.
