Deployment Guide

security Section

12/18/2025

security Section

Contents

- 1 security Section
 - 1.1 provider
 - 1.2 trusted-ca
 - 1.3 truststore-password

provider

Default value: none

Valid Values:

- MSCAPI - MS-CAPI keystore
- JKS - Java keystore
- PEM - PEM keystore

Changes Take Effect: After restart

Specifies the type of trusted storage. If empty, TLS support is disabled for connections between Co-browse Server and other Genesys servers.

Tip

The provider option was named `trusted-ca-type` in Co-browse 8.1.3 releases.

trusted-ca

Default value: none

Valid Values: Valid file name

Changes Take Effect: After restart

File name for JKS trusted storage type or trusted CA in PEM format.

truststore-password

Default value: none

Valid Values: Any sequence of characters

Changes Take Effect: After restart

Password for the JKS trusted storage.

Tip

The `truststore-password` option was named `trusted-ca-pwd` in Co-browse 8.1.3 releases.
