Agents reports

Agents reports

This page describes reports you can use to learn more about the performance of agents in your contact center. The reports in the **Agents** folder are ready-to-use, but as always, can be modified to suit your specific business needs.

Tip

Interactions pertaining to an agent are attributed to each group of which the agent is a member. So, in scenarios where an agent is a member of more than one agent group, interactions are counted against each group, and can therefore appear more than once in historical reports. Similarly, interactions that are attributed to queues that are members of more than one queue group are reported against both queue groups.

About Agents reports

The screenshot displays the 'Agents' folder within the CX Insights interface. On the left, a navigation pane shows the hierarchy: CX Insights > Agents. The main area lists eight reports, each with a small icon, title, owner, modification date, and a brief description.
