# Genesys Rules System Deployment Guide

Role Task Permissions

12/21/2025

# Role Task Permissions

When GRAT has been deployed by using Genesys Administrator, role task permissions can be configured in Genesys Administrator.

A new Role object can be created under **Provisioning > Accounts > Roles**. On the **Role Privileges** tab there is a check box to add the privileges that are associated with the Genesys Rule Authoring Generic Server.

You can grant users a specific set of permissions by adding them as members of a role—either individually or as part of an access group. There are six groups of privileges:

- **Rule Authoring**
  - Create
  - Delete
  - Modify (overrides Edit Only)
  - Edit Only (edit-only access to existing rule parameters, when in conjunction with View. Cannot create new rules, delete rules, or even add/remove conditions.)
  - View
- **Rule Packages**
  - Create Package (Global Roles Only)
  - Modify Package
  - Delete Package
  - Deploy Package
  - Undeploy Package
  - View Package (Rule Package Roles only)
  - Create Package Snapshot
  - Delete Package Snapshot
  - View Package Snapshot
  - View Package History Changed By
  - Package History Admin View
- **Rule Templates**
  - Create
  - Modify
  - Delete
- **Test Scenarios**

- Create
- Modify
- View
- Delete
- Execute
- **Business Calendars**
  - Create
  - Delete
  - Modify
  - View
- **Locks**
  - Override Locks
