Welcome

SIP Voicemail Administration Guide

Administering SIP Voicemail requires that you access several different tools to complete different tasks. Select the right tool for the task from the list below.

Configuration Manager or Genesys Administrator

Use either Configuration Manager or Genesys Administrator to modify configuration options.

Defining Administrators

Starting and Stopping

Backing Up and Restoring

Managing Mailboxes

SIP Voicemail Server Configuration Options.

SIP Voicemail Administrator Web Page

Use the Genesys SIP Voicemail Administrator Web Page to change your voicemail settings.

Logging in to the Web Page

Using the Web Page
