API Events

Once you've registered your own plugin on the bus, you can subscribe and listen for published events. Below we'll quickly register a new plugin on the bus using the global bus object.

> ### Important
>
> The global bus object is a debug tool. When implementing Widgets on your own site, do not use the global bus object to register your custom plugins. Instead, see Widgets Extensions for more information about extending Genesys Widgets.

```
var oMyPlugin = window._genesys.widgets.bus.registerPlugin('MyPlugin');

oMyPlugin.subscribe('Search.ready', function(e){});
```

Name	Description	Data
ready	The Search widget is initialized and ready to accept commands	
opened	The Search widget has appeared on screen	n/a
closed	The Search widget has been removed from the screen	n/a
