# Web Services API Reference

Channels API

# Channels API

This document describes the Channels API portion of the [Web Services API](#).

## Contents

- [1 Channels API](#)
  - [1.1 Resources](#)
  - [1.2 Managing channels](#)

## Resources

The Channels API includes the following resource:

- [Channel resource](#)

## Managing channels

A channel represents a particular type of media such as email or chat, but it can also represent specific online platforms such as Salesforce or Facebook. Channels are linked to [features](#) in a one-to-many relationship; a feature can have multiple channels, while each channel is only associated with one feature.
