Deployment Procedures

This chapter provides the procedures that are required to install and deploy Interaction Workspace in a Genesys 8 environment. The following task table provides an overview of how to set up your Genesys 8 Configuration Layer for Interaction Workspace, install and deploy Interaction Workspace, and perform additional (optional) installations. Refer to *Framework 8.0 Genesys Administrator Help* and *Genesys Security Guide* for detailed information on how to use Genesys Administrator and Management Framework to configure access permissions.
