# Fetch a list of filters available for GTL

## Method

GET

## Syntax

GET /gtl/filters/<tenant\_dbid>

## Response Body

```
[  
  "<filter name>",  
  ...  
]
```

## Notes

The list contains names of filters that are owned by the current user or are public (the list may be empty). Private filters owned by other users are not displayed. This is the default behavior for Global Task List.
