Orchestration Server Deployment Guide

Orchestration Server 8.1.3 Deployment Guide

4/1/2025

Orchestration Server 8.1.3 Deployment Guide

Welcome to the Orchestration Server 8.1.3 Deployment Guide. This guide explains Genesys Orchestration Server (ORS) features, functions, and architecture; provides deployment-planning guidance; and describes how to configure, install, uninstall, start, and stop the Orchestration Server.

About Orchestration Server

This section includes information on:

[ORS Overview](#)

[New in This Release](#)

[Architecture](#)

[Deployment Models](#)

[SCXML and ORS Extensions](#)

General Configuration & Deployment

This section includes information on:

[Prerequisites](#)

[Deployment Tasks](#)

[Cluster Configuration](#)

[Loading an Application](#)

[Interacting with eServices](#)

ORS Features

This section includes information on:

[Persistence](#)

[High Availability](#)

[Clustering](#)

[Load Balancing](#)

[Multiple Data Centers](#)

Options

This section includes information on:

[Application Level Options](#)

[Common Log Options](#)

[Switch gts](#)

[DN Level Options](#)

[Enhanced Routing Script Options](#)

ORS and SIP Server

This section includes information on:

Application Server Deployment and Debugging

This section includes information on:

[PrivateServiceRequest Action](#)

[Attribute Details](#)

[Target T-Server](#)

[Child Objects](#)

[Events](#)

[Deploying Voice Applications](#)

[Manually Deploying a Voice Application](#)

[Debugging SCXML Applications](#)

Installing

This section includes information on:

[Install Package Location](#)

[Installing on Windows](#)

[Installing on UNIX](#)

[Starting and Stopping](#)

Starting and Stopping

This section includes information on:

[Starting](#)

[Stopping](#)

[Non-Stop Operation](#)

[Version Identification](#)
