Strategy Object

default Section

- [max-submitted-interactions](#)

max-submitted-interactions

Default Value: No default value

Valid Values: Any integer from 0-50,000

Changes Take Effect: Immediately

Related Options: [default-max-submitted-per-strategy](#)

Specifies the maximum number of interactions that Interaction Server can submit to URS.

If this option exists in the [default] section on the Annex tab of the Strategy object, its value overrides the value specified for the default-max-submitted-per-strategy option for this particular strategy.

A value of 0 prevents interactions from being submitted to the strategy. If you reset the value of this option to a lower value, Interaction Server will not submit any more interactions until the number of interactions falls below the new value.
