MRCPv1\_ASR

4/22/2025

## MRCPv1\_ASR

Options for this component are contained in the following configuration sections:

provision

## Tip

In the summary table(s) below, type in the Search box to quickly find options, configuration sections, or other values, and/or click a column name to sort the table. Click an option name to link to a full description of the option. Be aware that the default and valid values are the values in effect with the latest release of the software and may have changed since the release you have; refer to the full description of the option to see information for earlier releases.

**Power users: Download a CSV file** containing default and valid values and descriptions.

Section	Option	Default	Changes Take Effect
provision	vrm.client.ConnectPerSetu	u <b>f</b> alse	At start/restart
provision	vrm.client.DisableHotWord	true
