# Knowledge Nudge

The screenshot shows the 'Knowledge Nudge' tab in a software interface. At the top, there are several tabs: 'Basic', 'Test Navigation', 'Test Reset', 'Knowledge Nudge' (selected), 'Certificate', 'Reports', 'Learning Item Settings', and 'Assessment Branding Settings'. Below the tabs, there is a section titled 'Assigned Nudge'. This section includes a 'Search Type' dropdown menu set to 'Tag', an 'Owner' dropdown menu set to 'Me', and a 'Search Term' input field with a 'Search' button. There is also a 'Group by Tag' checkbox. To the right of the search area are two buttons: 'Assign Selected Nudge' and 'Create Nudge'. Below the search area is a table with the following data:

| Nudge Title       | Owner      | Nudge Type | Date created     |
|-------------------|------------|------------|------------------|
| Water Supply.wiki | Demo Admin | URL        | 24/11/2015 10:29 |
| Rentalcar.com     | Demo Admin | URL        | 07/12/2015 15:31 |

At the bottom of the table, there is a pagination bar showing 'Page 1 of 1, items 1 to 2 of 2' and a 'Page Size' dropdown menu set to '10'.

Existing Knowledge Nudges can be embedded into Assessments. Search for the Knowledge Nudge that you want to attach to the assessment, then highlight the Knowledge Nudge and click on Assign Selected Nudge. **New Knowledge Nudges** can be created from within this tab as well. For further information on Knowledge Nudges, please see [Managing Knowledge Nudges](#).
