Learning Items Assignment Email

## Learning Items Assignment Email

This option is available on the **System Settings > Event Settings** tab. It allows you to set the frequency for processing notifications of the assignment of learning items. To enable it, select the **Enabled** check box for the **Learning Items Assignment Email** item. The **Interval in Minutes** setting specifies how frequently emails will be processed. Any learning item assignments that occur within the interval period will be combined into a single email per user. Note: This feature requires that certain other settings have been specified; including the email field (specified in the **General Settings** tab) and that users must have valid email addresses specified for this user field.
