# Genesys Engage cloud Workforce Management 8.5.1 Guide

[Adjust Volumes Dialog Box](#)

# Adjust Volumes Dialog Box

## Important

This content may not be the latest Genesys Engage cloud content. To find the latest content, go to [Workforce Management in Genesys Engage cloud](#).

Use the **Adjust Volume** dialog box to adjust the volume, the average handling time (AHT), or both for a selected **Scenario Volumes view**.

1. Click **Adjust**  on the **Forecast Volumes** scenario toolbar, to display the **Adjust Volumes** dialog box.
2. Click the **Target** down arrow and select one of the following:
  - **Interaction Volume**
  - **AHT** (average handling time)
  - **Interaction Volume and AHT**
3. Decide how (and by how much) to adjust values in the **Forecast Volumes** grid:
  - Select the **Adjust By (%)** radio button and enter into the field a number to be the percentage by which to adjust existing values that fall within the date range that is specified by **Start Time** and **End Time** below.  
Valid values range from -99% to 999%.  
OR
  - Select the **Set Total** radio button and enter into the field a number to be the total by which to adjust existing values that fall within the date range that is specified by **Start Time** and **End Time** below.
4. Specify the date range to adjust values in the **Forecast Volumes** grid:
  - a. In the **Start Time** field, enter or select a start date and timestep.  
Range: any date equal to or later than the date in the upper right of the **Forecast Volumes** grid; 00-23 hours; 00, 15, 30, or 45 minutes.
  - b. In the field **End Time**, enter or select an end date and timestep.  
Range: any date later than the **Start Time** date; 00-23 hours; 00, 15, 30, or 45 minutes.
5. Click **OK**.  
WFM adjusts the forecast and the view reappears, showing your results.
