CRW: Select Activities Screen

> ### Important
> This content may not be the latest Genesys Engage cloud content. To find the latest content, go to Workforce Management in Genesys Engage cloud.

To fill in the **Select Activities** screen in the **Commit/Rollback Wizard** (CRW):

1. Select any combination of **activities**.
   You can select individual activities from multiple sites and multi-site activities from business units. Only activities that belong to the business unit and sites that are selected on the **Object** pane's **Activities** tree are available for selection here.

2. Click **Next** to open the **Select Agents** screen.
   Click **Cancel** if you want to close the wizard without saving or deleting pending changes.
