# Genesys Engage cloud Workforce Management 8.5.1 Guide

**SBW: Staffing Requirements**

5/11/2025

# SBW: Staffing Requirements

## Important

This content may not be the latest Genesys Engage cloud content. To find the latest content, go to [Workforce Management in Genesys Engage cloud](#).

Use the **Staffing Requirements** screen in the **Staffing Build Wizard** (SBW) to define how staffing requirements are built. You will use this screen for **Immediate** activities if you do not define any service objective, or for **Fixed-Staff** activities.

1. Do one of the following:
  - Select **Number of Agents Each Time Step** and enter the appropriate number in the text box to the right.
  - Select **Average Activity Handling Time** and enter the appropriate value (in seconds) in the text box to the right.
  - Select **Use Staffing Template** and click **Load Template** to [load an existing template](#).
2. Click **Finish**.  
WFM Web calculates the staffing volumes and displays them in the **Staffing view**. An error message appears if WFM Web cannot complete the calculation.
