TSwitchInfoType

4/23/2025

TSwitchInfoType

Syntax

```
typedef enum {
        SwitchInfoDateTime
        SwitchInfoClassifierStat
} TSwitchInfoType;
```

Values

- `SwitchInfoDateTime` — Requests current date and time information as stated on the switch.
- `SwitchInfoClassifierStat` — Returns the numbers of idle classifiers and of classifiers in use.
