TDeleteAllUserData

Description

On behalf of the telephony object specified by the parameter `dn`, deletes all the user data attached to the call specified by the parameter `conn_id`.

Parameters

Name	Description
<code>server</code>	Local server handle to the T-Server in question.
<code>dn</code>	Directory number of the telephony object on whose behalf the user data is requested to be deleted.
<code>conn_id</code>	Connection identifier of the call in question.

Return Values

Standard (See [standard-return-values](#).)
