`CfgDeltaScheduledTask`

12/19/2025

CfgDeltaScheduledTask

Description

The changes to make to a [CfgScheduledTask](#) object.

Attributes

- `deltaScheduledTask` — A pointer to the structure that contains information about changes made to this [CfgScheduledTask](#) data. Mandatory.
- `deletedUserProperties` — A pointer to the list of deleted user-defined properties. Has the same structure as parameter `userProperties`.
- `changedUserProperties` — A pointer to the list of user-defined properties whose values have been changed. Has the same structure as parameter `userProperties`.
- `deletedResources` — A pointer to the list of deleted resources (every item of this list is structured as [CfgID](#)).
- `changedResources` — A pointer to the list of structures [CfgObjectResource](#) type. Each structure contains information about the resource parameters that have been changed.
