TGiveSilenceTreatment

Description

On behalf of the telephony object specified by the parameter dn, connects the call specified by the parameter conn_id to a source of silence, which is specified in the switch.

Parameters

Name	Description
server	Local server handle to the T-Server in question.
dn	Directory number of the telephony object.
conn_id	Connection identifier of the call that is requested to be connected to the silence source.
reasons	A pointer to a data structure that provides additional information associated with this action.
extensions	A pointer to an additional data structure.

Return Values

Standard (See standard-return-values.)
