TSetMessageWaitingOff

Description

Sets the Message Waiting indication to Off for the telephony object specified by the parameter dn.

Parameters

Name	Description
server	Local server handle to the T-Server in question.
dn	Directory number of the telephony object for which message waiting is requested to be turned off.
reasons	A pointer to a data structure that provides additional information associated with this action.
extensions	A pointer to an additional data structure.

Return Values

Standard (See standard-return-values.)
