TTimeStamp

5/2/2025

TTimeStamp

Syntax

```
typedef struct TTimestamp_tag{
        unsigned long         seconds;
        unsigned long         useconds;
} TTimeStamp;
```

Values

- seconds — Time calculated since 00:00:00 GMT January 1, 1970, measured in seconds.

- useconds — Amount of time, up to 1000 milliseconds, for use as a more precise interval within the TTimeStamp structure.
