07/09/14	Hot Fix					X		X

Contents

New in This Release

This is a hot fix for this product. This release does not contain new features or functionality.

Corrections and Modifications

This release also includes the following corrections or modifications:

The GMS Forward API, /genesys/1/ors/**, now correctly forwards requests when the body content type is other than url-encoded or form-data. Previously, the body of the request was not forwarded to ORS. (GMS-1515)
