  - 1.4 Upgrade Notes

What's New

This release includes only resolved issues.

Resolved Issues

This release contains the following resolved issues:

Context Services

The Context Services API now allows DELETE operations even if
you do not supply the `Content-Type=application/json` header in the API query. (GMS-3857)

Callback

The RVQDBID and RVQID attached data keys of the callback call are now correctly set and no longer
prevent statistical reporting from functioning properly. (GMS-3850)

Upgrade Notes

No special procedure is required to upgrade to release 8.5.105.14.
