Contents

What's New

This release contains the following new features and enhancements:

- The **enable-thread** option in the **[log]** section of the SNMP Master Agent Application Template options is now set to the default value (*false*). If you want to use the log throttling feature with SNMP Master Agent, you must explicitly change the value of this option.

Resolved Issues

This release contains no resolved issues.

Upgrade Notes

No special procedure is required to upgrade to release 8.5.100.00.
