Interaction Server Proxy

9.0.001.02

2/25/2025

9.0.001.02

Interaction Server Proxy Release Notes

9.x Interaction Server Proxy is part of 9.x starting in **9.0.000.02**.

Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
12/17/20	General			X		X

What's New

This release contains the following new features and enhancements:

- Interaction Server Proxy does not support Red Hat Enterprise Linux 6 any longer. See the [eServices](#) page in the *Supported Operating Environment Reference Guide* for more detailed information and a list of all supported operating systems, browsers, web server applications, and databases. (IXN-5822)
- A new option, **submit-prefer-parent-server**, is introduced. This option allows to specify how Interaction Server Proxy should submit a child interaction of a media type not supported by Interaction Server where the parent interaction resides. (IXN-5157)

Resolved Issues

This release contains the following resolved issues:

Interaction Server Proxy now prints properly the used locale in the startup log on Linux. Previously, random symbols were printed. (IXN-5957)

Interaction Server Proxy now forwards ESP requests properly. Previously, Interaction Server Proxy re-targeted an ESP request to Interaction Server when the ESP request contained the InteractionId attribute. (IXN-5503)

Upgrade Notes

No special procedure is required to upgrade to release 9.0.001.02.
