Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
08/30/19	General			X		X

What's New

This release contains the following new features and enhancements:

- The Genesys Rules Development Tool (GRDT—latest release 8.1.4) has been merged with the Genesys Rules Authoring Tool (GRAT) to provide one platform for development of templates through to authoring of business rules and their publication to the Genesys Rules Engine or other specified engine. Please refer to the [Genesys Rules Authoring Tool Help](#) for more details. (GRS-3349)
- The user interface of the new GRAT has been upgraded to the current Genesys branding and style guidelines. (GRS-3348)
- Undo/re-do buttons have been added to the user interface to assist in editing rules, calendars and test scenarios. (GRS-3350)
- A "Disable Package Serialization" checkbox has been added to the **General** tab of rules packages in GRAT to enable package serialization to be disabled at the rule package level. See [enable-package-serialization](#). (GRS-3357)
- GRAT has been upgraded to support latest browser releases for improved security and support. (GRS-3352)
- Role-Based Access Control (RBAC) has been extended to the Template Development features added to the new GRAT. (GRS-2947)
- Support for the following operating environments:
 - OpenJDK 1.8. (GRS-3351)
