Email address within angle brackets is now enabled to be displayed in the **Rules** tab. However, due to the limitations in dynamic HTML framework, if there is a change in the format other than Description <Email address>, the email address will not be displayed properly. (GRS-4021)

Login details are now encrypted in browser cookies and session storage. (GRS-4001)

GRAT supports Level 2 structure roles which are introduced in **GAX 9.0.100.*** release with backward compatibility towards Level 3 structure roles. (GRS-3901)

The configuration option log4j2-config-profile is removed from GRAT templates. (GRS-3815)

The '+' operator is now skipped for encoding/decoding when passed as a value to Rule conditions/actions. (GRS-3801)

Upgrade Notes

No special procedure is required to upgrade to release 9.0.001.01.
