What's New

This release includes only resolved issues.

Resolved Issues

This release contains the following resolved issues:

Resource Manager (RM) now submits DN statistics correctly.
Previously, RM did not decrement the DN statistics submitted for a specific Dialed Number Identification Service (DNIS). (GVP-36161)

RM now generates the MEDIA_SERVICE statistics report with valid values for component-type parameters. Previously, it generated an invalid value for the parameter. (GVP-35989)
