## Widgets Release Notes

### 9.x

Release Date	Release Type	Restrictions
07/03/19	Update	

Widgets is platform-independent software. You can deploy the installation package on any operating system that Widgets supports.

### What's New

This release includes only resolved issues.

### Resolved Issues

This release contains the following resolved issues:

---

An estimated wait time alert icon is no longer displayed for unavailable channels in the ChannelSelector widget. (CXW-2373)

---

The mobile device browser detection when using the `Common.getBrowserandOS()` method has been corrected and enhanced. (CXW-2367)

---

The `Calendar.showAvailability` command now works as expected, allowing proper updates to Calendar timeslots. (CXW-2360)

---
