Widgets is platform-independent software. You can deploy the installation package on any operating system that Widgets supports.

What's New

This release includes only resolved issues.

Resolved Issues

This release contains the following resolved issues:

The following alert dialog now displays in the WebChat Widget when an invalid Data URL is provided while attempting to connect with the chat server: We're sorry, an unexpected error occurred with the service. Would you like to close and start a new Chat? (CXW-277)
