Genesys Decisions Release Notes

Release Date	Release Type	Restrictions	AIX	Linux	Solaris	Windows
11/05/19	Update					X

What's New

This release includes only resolved issues.

Resolved Issues

This release contains the following resolved issues:

Multi-skill Scenarios — Scenarios that include multi-skill groups now open successfully. Previously, users sometimes received an error message - Input string was not in a correct format - and then the scenario failed to open.

IEX One File Imports — Files imported using the IEX One File data feed now show correct calculated values.
