Installing SIP Endpoint SDK for .NET

Warning

This documentation is outdated and is included for historical purposes only.

Contents

- [1 Installing SIP Endpoint SDK for .NET](#)
 - [1.1 Prerequisites](#)
 - [1.2 Procedure](#)

Prerequisites

- Check the list of **environment prerequisites**, and confirm that your system meets these standards prior to installing SIP Endpoint SDK.

Procedure

Start of procedure

1. Run the installation file named `setup.exe` located in the `\SIPEndpointSDK\DotNet\windows\` directory on your product CD. The Genesys Installation Wizard is displayed to guide you through the installation and setup process.
2. Click **Next** at the Welcome dialog to display the Genesys License Agreement dialog.
3. Check the **I accept Genesys License Agreement** box to accept the conditions of the agreement.
4. Click **Next** at the Genesys License Agreement dialog. The Choose Destination Location dialog is displayed, showing the default destination, `C:\Program Files\GCTI\SIP Endpoint SDK`.
5. Click **Next** if you want to accept the default destination folder that is specified. If you prefer to install the SIP Endpoint SDK in a different location than the default directory, complete the following steps:
 1. Click **Browse** to open the Choose Folder dialog.
 2. Navigate to and select a directory path.
 3. Click **OK** to return to the Choose Destination Location dialog.
 4. Click **Next** to accept the destination folder that you have selected.
6. At the **Ready to Install** dialog, click **Install**. The Wizard installs the SIP Endpoint SDK, and all associated files, in the directory you selected. When the installation is finished, the **Installation Complete** dialog appears.
7. Click **Finish**.

End of procedure Next Steps

- To review the installation and confirm the location of your SIP Endpoint SDK files, continue by **verifying the installed components**.
