SIP Endpoint SDK Deployment Guide

Installing SIP Endpoint SDK for .NET

12/17/2025

Installing SIP Endpoint SDK for .NET

Contents

Prerequisites

- Check the list of environment prerequisites, and confirm that your system meets these standards prior to installing SIP Endpoint SDK.

Procedure

Start of procedure

1. Run the installation file named `setup.exe` located in the `\SIPEndpointSDK\DotNet\windows\` directory on your product CD. The `Genesys Installation Wizard` is displayed to guide you through the installation and setup process.

2. Click `Next` at the `Welcome` dialog to display the `Genesys License Agreement` dialog.

3. Check the `I accept Genesys License Agreement` box to accept the conditions of the agreement.

4. Click `Next` at the `Genesys License Agreement` dialog. The `Choose Destination Location` dialog is displayed, showing the default destination, `C:\Program Files\GCTI\SIP Endpoint SDK`.

5. Click `Next` if you want to accept the default destination folder that is specified. If you prefer to install the SIP Endpoint SDK in a different location than the default directory, complete the following steps:

   1. Click `Browse` to open the `Choose Folder` dialog.

   2. Navigate to and select a directory path.

   3. Click `OK` to return to the `Choose Destination Location` dialog.

   4. Click `Next` to accept the destination folder that you have selected.

6. At the `Ready to Install` dialog, click `Install`. The Wizard installs the SIP Endpoint SDK, and all associated files, in the directory you selected. When the installation is finished, the `Installation Complete` dialog appears.

7. Click `Finish`.

End of procedure Next Steps

- To review the installation and confirm the location of your SIP Endpoint SDK files, continue by verifying the installed components.
