# Introducing the SMART Interface

The SMART interface contains the following main components:

| Number | Description |
|---|---|
| 1 | Quick access to:<br><br>• **Refresh**: updates the display to include all of the latest SMART changes.<br><br>• **Apply**: updates SpeechMiner with the the latest SMART changes.<br><br>• **Import**: enables you to import SMART instructions. |

| Number | Description |
|---|---|
| | •  **Export**: enables you to export SMART instructions. |
| 2 | Quick access to managing categories programs or topics. |
| 3 | Includes the options associated with the selected manager (that is, categories, topics or programs). |
| 4 | Contains icons for the options associated with the selected manager. If the left pane is not wide enough to display all the options, a drop-down menu appears. |
| 5 | Filters the tree according to the characters entered in the **Filter** field and the **Show** drop-down list (see item 7). Items in the tree that do not contain the characters in the Filter field will not appear in the tree. |
| 6 | Filters the tree according to the type of information you want to see:<br><br>• **Show All**: shows all the items in the tree.<br><br>• **Show Active**: shows all the active items. That is, categories and programs that can be applied to SpeechMiner.<br><br>• **Show Inactive**: shows all the inactive items. That is, categories and programs that cannot be applied to SpeechMiner.<br><br>• **Show Updated since Apply**: shows all the items that were changed since you last applied SMART changes to SpeechMiner.<br><br>• **Show Locked by Me**: shows all the items locked by the current user.<br><br>• **Show Locked**: shows all the locked items.<br><br>• **Show Not in Program**: shows all the topics that have not been assigned to a program. |
| 7 | A list of the existing topics, categories or programs. The list you see depends on the selected manager. |
| 8 | A list of the sub-categories associated with the selected category in the **Category Manager** tree. This area is only available when Category Manager is selected. |
| 9 | Toggles between hiding  and showing  the left pane. When the left pane is hidden, hover over the left area of the screen to expose the left pane and click the **Show** icon to show the left pane. |
| 10 | Displays all the open items. |
