# Move a Category

The list of categories appears in SpeechMiner in the same order and with the same structure as it does in SMART. It is therefore recommended to organize the list in a way that is convenient for SpeechMiner users. You can do this by moving categories up or down in the Category Manager tree list.

## Procedure

1. Select the **Category Manager** tab.
2. Select the category you want to move.
3. Click **Move Up**  or **Move Down**  as many times as necessary to move the category to the desired location in the tree list.
