## WFM Web Server Components Support

### Notes:

- An asterisk (\*) indicates the oldest operating systems supported for the Genesys 7.x and Genesys 8.x Maintenance Interoperable Components, including AIX Power PC, HP-UX, and Solaris SPARC.
- For Microsoft products with sub-versions such as R1/R2, all versions are supported except as noted for the specific product.
- Genesys supports use of products on Oracle Linux, provided that the Oracle Linux distribution is 100% compatible with a Genesys-supported Red Hat distribution, and that the Oracle Unbreakable Enterprise Kernel is not used. Genesys will only support Oracle Linux based on testing and reproduction of any issues in the equivalent Red Hat Linux version; no investigation or testing will be performed on Oracle Linux itself. Support only applies to Oracle Linux versions 5.x and later.

## Prerequisites

### Notes:

- If one of supported OpenJDK versions is the preferred choice for your environment, take note that the Genesys WFM solution was tested by the quality assurance team with Oracle OpenJDK only. Other vendor's builds of OpenJDK potentially might not work properly. Therefore, Genesys recommends Oracle OpenJDK builds to ensure the product functions properly.
