Workforce Management Web for Supervisors Help

Colors

Colors

Within the **Configuration** module, Supervisors can use the **Colors** view to configure the colors that WFM uses in the Supervisor **Schedule** views.

- You can configure default values for these schedule items: **Activity Sets**, **Breaks**, **Days Off**, **Exceptions**, **Marked Times**, **Meals**, **Time Offs**, and **Work**.
- You can configure specific colors for: **Activity Sets**, **Exception Types**, **Marked Times**, or **Time-Off Types**.

To find items in long lists, use **Search**. To sort the list in ascending or descending order, click **Sort**

or the **Item** column header.

Using the drop-down list, you can filter the list by **Default**, **Activity Sets**, **Exception Types**, **Marked Times**, or **Time-Off Types** to view specific items for the selected business unit and sites. If you choose **Default**, the default colors for the business unit are displayed and the **Site** column is empty.

For details about how to configure default and specific colors, see [Configuring Colors](#).

Security Permissions

To configure colors, you must have the **Configuration > Colors in Schedule** security permission, which is assigned in WFM Web. See [Configuration Role Privileges](#).
