### **About Genesys**

Genesys Telecommunications Laboratories, Inc., a subsidiary of Alcatel-Lucent, is 100% focused on software for call centers. Genesys recognizes that better interactions drive better business and build company reputations. Customer service solutions from Genesys deliver on this promise for Global 2000 enterprises, government organizations, and telecommunications service providers across 80 countries, directing more than 100 million customer interactions every day. Sophisticated routing and reporting across voice, e-mail, and Web channels ensure that customers are quickly connected to the best available resource—the first time. Genesys offers solutions for customer service, help desks, order desks, collections, outbound telesales and service, and workforce management. Visit [www.genesyslab.com](http://www.genesyslab.com) for more information.

Each product has its own documentation for online viewing at the Genesys Technical Support website or on the Documentation Library CD, which is available from Genesys upon request. For more information, contact your sales representative.

### **Notice**

Although reasonable effort is made to ensure that the information in this document is complete and accurate at the time of release, Genesys Telecommunications Laboratories, Inc. cannot assume responsibility for any existing errors. Changes and/or corrections to the information contained in this document may be incorporated in future versions.

### **You are Responsibility for Your System's Security**

You are responsible for the security of your system. Product administration to prevent unauthorized use is your responsibility. Your system administrator should read all documents provided with this product to fully understand the features available that reduce your risk of incurring charges for unlicensed use of Genesys products.

### **Trademarks**

Genesys, the Genesys logo, VoiceGenie, and T-Server are registered trademarks of Genesys Telecommunications Laboratories, Inc. ## VoiceGenie 7.2.0 Hot Fix 1 OA&M Framework Release Notes

### Product Version Identification

<b>Product Name</b>	VoiceGenie OAM Framework
<b>Version</b>	7.2.0HF1
<b>Release Date</b>	April 2008

Hot Fix Information	
<b>Tools and OA&amp;M Framework Files</b>	cmp-db-7.2.0-HF1.tar.gz cmp-proxy-7.2.0-HF1.tar.gz

### Installing & Configuring VoiceGenie Hot Fix

1. Under Linux copy the following packages to the directory /usr/local/vg\_install/products/
  - cmp-db-7.2.0-HF1.tar.gz (new with Hot Fix)
  - cmp-proxy-7.2.0-HF1.tar.gz (new with Hot Fix)
  - cmp-server-7.2.0-34.tar.gz
  - cmp-smc-7.2.0-34.tar.gz
2. Follow the 7.2 installation guide for installing VG OAM Framework.
3. The default response timeout value is 10 sec. If this needs to be adjusted, the CLC configuration parameter 'cmp.max\_responsetimeout' can be changed (to values between 4 and 3600 seconds) via the Configuration tab of the SMC.

### Fixes

The following issues have been addressed in this release:

ER #	Summary
179483867	CLC timeout too small (and needs to be configurable)
